

COMPLETE TIE-UP OF FREIGHT THREATENED

RAILROAD STRIKES IN OHIO SPREAD

Principal Industrial Centers Are Seriously Handicapped

FUEL SHORTAGE IS FEARED

Meat Rationing Considered in Columbus—Supply Depleted

CLEVELAND. — Ohio's principal industrial centers with the exception of Cincinnati, were in the grip of the insurgent yardmen's strike Saturday night.

Strike leaders here were jubilant at their success in the state and particularly Cleveland — the headquarters of the four big railroad brotherhoods. They regarded the strike of 2,000 yardmen in Cleveland as a great moral victory over the regular organizations. Officials of the brotherhoods exerted every effort to stave off the walkout.

The cities affected and the number of strikers follows:

- Youngstown, 4,000.
- Cleveland, 20,000.
- Toledo, 2,000.
- Columbus, 1,500.
- Dayton, 250.
- Akron, 150.
- Warren, 100.
- Canton, 100.

Both Youngstown and Warren reported an acute shortage of coal and it was feared if the present flow of fuel is stopped, several thousand steel workers will be thrown out of work. Akron reported less than four days' coal supply on hand. The big rubber companies are shipping tires to Chicago and other points by motor truck, due to the lack of freight moving facilities.

Meat rationing was considered in Columbus, due to the small supply on hand. It was estimated that only a three days' supply was in the city. Wholesalers said their supply was nearly depleted.

Freight embargoes were in force in practically every city affected by the strike. Milk, passenger and mail trains have so far been exempted by the insurgents.

The food situation is regarded as serious. About one week's supply of provisions was reported in the store houses. There is preparation for the use of a food rationing system. The city is endeavoring to utilize the motor trucks and the interurban lines to bring in foodstuffs from all available sources of supply.

Chiefs of the four big brotherhoods said the matter has settled down to a final fight between the regular organizations and the insurgents, who are endeavoring to destroy the brotherhoods and set up in their place the "one big union."

ILLINOIS PRIMARY NEXT ON SLATE

their preference. Hoover's name was not on either list. Yet the first voter wrote his name to an extent sufficient to make him second choice to Wood on the republican list and to place him at the head of democratic candidates. And so, it is figured, a general unofficial expression of preference might prove a disaster instead of a benefit to the Wood campaign.

From South Carolina comes word that the democratic managers in that state was delighted that Hoover has come out as a republican. It disposes of the former food administrator as a democratic possibility, so far as the South Carolina delegation is concerned, says a dispatch from Columbia and McAdoo stock is picking up rapidly. The Stars, Louisville, correspondent reports that Hoover sentiment among Kentucky democrats, has cooled rapidly since Hoover's announcement of republicanism, but that it now is raging among Kentucky republicans. The correspondents say belief is expressed that in event neither party nominates Hoover there will be enough support to carry the state for him on an independent ticket, provided the women vote.

Interest in democratic candidates for the presidential nomination continues at a rather low ebb, though the campaign in Georgia is being watched closely for indications of the drift of sentiment. Democratic politicians apparently are more concerned just now as to whether their platform will be "wet" or "dry" than they are in who will head the ticket. There are some indications that the "dry" may line up behind Attorney General Palmer and the "wet" behind Gov. Cox of Ohio, and that on that issue the contest may be fought out between them.

COLUMBUS.—Complete paralysis of transportation facilities in Columbus seemed nearly Saturday when the strike of railroad switchmen reached local yards. All roads entering Columbus were affected.

Striking switchmen declared 2,000 men are on strike here. Other estimates ranged from 1,000 men up.

Embargoes on outgoing freight were put into effect on all roads. Incoming freight can be handled for the time, it is said, by clerks and other office men.

Organization of motor truck trains to insure an adequate food supply for the city was being discussed by business men.

SPECIAL ELECTION TO BE HELD FOR SCHOOL

Voters of Shawnee township will vote in special election June 2 on centralizing the schools of the township and a bond issue of \$250,000 to erect a new grade and high school building.

Agitation for centralizing the schools has been waged for some years and approval finally obtained for a popular vote. The tax rate of the township is said to be the lowest in the county. Some opposition has been voiced to the bond issue and centralization but supporters say they are confident both will carry. George Breeze is president of the board of education.

NATION CRIPPLED BY WALK-OUTS

of way in comparatively few trains that were made up.

Railroad managers and union men Saturday night have applied for no court order. "That's a thing for the government to decide, itself," S. E. Heberling, president of the Switchmen's Union of North America, said. "We have filed application for an injunction." It was stated at the office of the General Managers' Association. Heberling declared his belief that the strike was broken despite the increased number of men who have walked out in the last 24 hours. He said, were the last gasps of a struggling and beaten man.

According to officials of the Santa Fe, here, the amount of freight that is moving is about one-third normal. The Milwaukee road reported movement of all freight to points other than the Pacific coast completely tied up. With the exception of the New York Central, no road have lifted their embargoes. According to officials not a carload of perishable foods have left Chicago Saturday except over the New York Central, which shipped fifty cars of meat to the east.

Regarding the possibility of using troops, District Attorney Clyne said: "The government is not powerless."

There were indications the only possibility of the use of troops would be to aid in moving trains carrying necessities of life in case the food situation becomes desperate.

LIMA MAY SUFFER FOOD SHORTAGE

(Continued From Page One.)

strike movements were not on foot at any of the local yards.

Switchmen, trainmen and other employees of the three railroad yards Saturday stated they knew nothing of a strike order being considered here and added that to their knowledge Lima men would not walk out.

Speaking for the Brotherhood of Railway trainmen, Sanders said: "Local railroads have not yet held a meeting to discuss the strike situation. I cannot at this time say why the local men should join in the strike."

Tom Berry, veteran trainman of the B. & O. yards said: "I do not believe there will be a strike here. All local railroad men are members of the Brotherhood and I believe all are opposed to the outlaw strike."

Wilbur Smith, B. & O. railroad agent in general here but from counsel "I know very little of the situation with my fellow-workmen. We cannot force a strike here."

Railroad men refused to discuss the general strike situation, stating there has been little connection between railroad men here and those in the strike districts.

With walkouts at Dayton Saturday morning, B. & O. engineers arriving here Saturday afternoon said that Lima and Cincinnati were the only two yards of any consequence which were running full force.

Spreading of the strike Saturday to numerous cities has caused an embargo to be placed on freight from this city to any of the cities in the strike zone.

Inbound freight has practically been reduced to less than half the normal shipments on each of the three lines.

Discontinuance of inbound freight will cause severe food and fuel shortage here in several days, local men say.

MEETING ON FRANCHISES POSTPONED BY COUNCIL

Postponement of consideration by council and officials of the Ohio Electric railway company of the proposed rail and light franchises to Tuesday night was announced Saturday after receipt of word that Day and Zimmerman representing the Drexel interests would not reach the city before Tuesday morning.

Council will hold the adjourned meeting Monday night as scheduled it was announced, to consider a number of other matters.

SOLOMON COMPANY WILL OCCUPY OLD B. & L. SITE

The H. L. Solomon company, land merchants, Hotel Norval buildings have taken a lease on the present location of the Citizens' Loan and Building company, 321 N. Main-st. The Solomon company will change the new location as soon as the skyscraper, being constructed by the Citizens' Loan and Building company, N. Main-st. between High and North-sts., is completed.

They have leased the fixtures and furniture and the new quarters will give the Solomon company more room in which to take care of its business.

MEDIATION BOARD TO START PROBE

Full Report on Situation Will Be Laid Before Officials

PALMER MAY INTERVENE

Chief of Justice Department is Speeding to Washington

WASHINGTON. — A full report on the great railroad strike will be laid before the officials of the United States board of mediation Sunday morning, according to Secretary Smith.

Meanwhile, as far as could be learned Saturday night, no definite action had been ordered from Washington.

Justice department officials as announced Friday, were watching to see if they could institute prosecutions under the Lever law, but apparently no decision had yet been reached.

Secretary Smith, of the mediation board, said that G. W. Hanger, whom the board sent to Chicago to investigate the strike, is back Sunday. He is to go into conference with Chairman Knapp and Commissioner Chambers. Following this, President Wilson will be apprised of the result, it is expected.

Attorney General Palmer has been campaigning in Georgia and is hurrying for Washington. He will arrive Sunday or Monday. It was said, to take personal direction of the justice department moves.

It was stated at the White House Saturday that government action would be taken if the strike interfered with transportation of food and fuel.

That this transportation halt has begun to make itself felt, was indicated in news dispatches Saturday from New York, Chicago and other cities which told of rising prices, perishable food delayed in shipment, and delay in coal shipments. Mine operators report their shortage now is more acute than in many days and that coal shipments are correspondingly affected.

Wholesale dealers are complaining of non-arrival of cars. A coal famine that may close factories is considered not unlikely, unless relief is afforded soon.

The agriculture department gave an official statement showing there is enough food in storage in most big cities to last 30 days. Except in New York, the statement said, receipt of perishable foods for the week did not show a great reduction. The statement pointed out that war department supplies of meats and canned goods in the larger cities could be drawn upon if the situation becomes acute.

"No shortage in supplies of butter and eggs is anticipated in leading cities," said the statement. "Butter receipts in large cities were as large as usual last week, but were under the average of the same week last year. Cold storage supplies on hand in these cities including 6,847,014 pounds of butter in New York, 2,907,792 in Chicago, 502,700 pounds in Philadelphia and 871,918 in Boston."

"At Chicago," said the statement, "the supply of various commodities was reduced about 50 per cent with the possible exception of potatoes."

Herbert N. Shelton, acting director of the council of national defense Saturday said the government on short notice could mobilize 45,000 motor trucks to meet the transportation crisis. In addition, he said, 200,000 privately owned trucks and 7,000,000 passenger automobiles could be made available.

Within a few days 100 trucks can be rushed to each of the following cities: Washington, Philadelphia, Norfolk, Detroit, Columbus, New Orleans, El Paso, Baltimore, San Francisco, Boston, Chicago, Indianapolis, Buffalo, San Antonio and Seattle.

At least 1500 government trucks can be made available for use in New York City in a few days, Shelton said. The council now has plans made in co-operation with state governors to organize a motor transport system to cover the entire nation, according to Shelton. A meeting of the inter-departmental board of the council has been called to confer with members of former highway transportation committee, said Shelton, to consider ways and means of promoting the utilization of motor trucks in the event the same should become necessary or advisable.

C. E. STILES

POLITICAL GOSSIP

Gloom clouds are gathering and there is blood on the moon around the council fires of the remnants of the Old Guard of Allen-co. as primary days draw near and when send forth the message that the "army" candidate is in the person of an invader into the "favorite son" and particularly this section of the grand old state.

Wood supporters received with glee the announcement that Lima had been included in the General's swing around the circle, while followers of the Harding banner saw black, talked red and otherwise depicted themselves as befitting persons believing in the exclusion of outsiders from their own particular hunting field.

There is no such heated feeling among the Democrats over aspirants for the presidential chair, or at least no evidence has appeared above the surface, but there is rivalry, keen rivalry for a chance to represent the "faithful" of this district in the convention at San Francisco.

There are four true sons of Democracy who have buckled on the armor of battle and have entered the fray for the ride Golden Gate-ward for which two tickets will be issued.

J. H. Goeke, former congressman and John L. Marker, former state highway commissioner, erstwhile supporters of Senator Pomorene for the presidency and who failed to quit the race after their leader paved the way, Dun Kerwin, member of the state highway advisory board, and Mr. Christian of Darke-co. member of the state pharmacy board, both of whom are avowedly first, last and foremost Cox delegate candidates.

It's all a question, report has it, of "choosing whom ye will serve" for the four, kit and kaboodle, take kindly to the job of putting Ohio's governor across as Democratic standard bearer albeit they may differ somewhat in the degree of warmth shown.

J. W. Halfhill, Harding supporter and candidate for district delegate to the Republican convention in Chicago next June, has just completed a tour of the district in the interest of Harding, himself and each other. He found sentiment strong for Harding, he says. What does anyone suppose he was looking for?

Democratic members of the bar of Lima are most willing to sacrifice themselves on the altar of public service and justice to their fellow man as witness the waiting list for both common pleas and probate judgeships with entries still open. For the toga of common pleas Judge Klingner, C. L. Fess, E. E. Everett, J. J. Weadock and Probate Judge Becker, all are said to be willing to offer themselves lest it pass to Republican hands. Judge Klingner and Republicans, so far, are mute on the subject.

For probate judge, Robert Toland, deputy for a number of years, and Arthur Lindemann, of Delphos, whose father was once probate judge and a recognized Democratic county leader, are aspirants from the Democratic fold while Harley Holmes, former justice of the peace and J. H. Hamilton, present magistrate, are talked of as Republican contenders.

Owing to the absence from the city of several important members, no action was taken Saturday by the mayor's committee appointed to arrange for the observance of "America's Day, May 1." A general meeting will be called early in the week. Mayor Burkhardt announced.

PRECEDENT FIXED BY COURT

Court of Appeals Gives New Ruling on Fence Disputes

Both parties to a complaint over a property partition fence involving fees or expenses to the township trustees must share such costs equally regardless of cause for action, according to the ruling handed down by the court of appeals in a Monroe-co. case which is said to set a precedent in Ohio.

In the suit of Aaron States against the township trustees, plaintiff sought to enjoin collection of a fee of \$9 assessed by reason of a visit and order of the trustees on plaintiff's portion of a partition fence in which the other party in the fence ownership had already put up his portion and then sought the township order to bring about the completion of the other half.

In common pleas court, it was said that States, who is a former of the state board of public works, should pay the amount assessed, since the other party had previously completed his part of the fence. Court of appeals limits his portion to half and assessed costs of the appeal on the township trustees.

THIEVES TAKE WINES FROM C. F. BLISS HOME

Champagne, muscatel and Virginia Dare wine, valued at \$115 was stolen Sunday morning from the residence of C. F. Bliss, 627 N. Charles-st., according to reports received at police headquarters.

Bliss told police that thieves entered his residence by breaking thru a window on lower floor. Police say that 1 case of champagne and several bottles of muscatel and Virginia Dare wine were stolen.

FOUR MEN ARRESTED; CHARGED AS DRUNK

Four men giving their names and addresses as Sam East, 1075 Main-st., Sam Short, Forest-ave., Floyd Duff, 818 College-st. and "Squint" Davies, 1419 N. West-st., were arrested Saturday night charged with intoxication.

Pittsburg Industries Are Forced to Suspend Work

THOUSANDS OF MEN IDLE

Eastern Ohio Hard Hit by Freight Curtailment

PITTSBURG, Pa. — Western Pennsylvania and Eastern Ohio were in the throes of a railroad tie-up which threatened suspension of this district's great manufacturing plants.

Five thousand workers in the Shenango and Mahoning valleys were made idle by the strike of railroad yard men.

Strike votes were being taken Saturday night by yardmen in every yard in western Pennsylvania. Saturday saw the addition of several hundred strikers to the rebel ranks. Mills in Pittsburg proper, had not been affected but officials admitted that continuation of the strike would seriously cripple their establishments early next week.

Many steel plants in Youngstown and Newcasale were forced to suspend operations. In Youngstown the closing of the Youngstown Sheet and Tube Company and the Republic Iron and Steel Company threw more than 20,000 men out of work. Inability to transport fuel resulted in the shutdown.

Embargoes were declared by all railroads entering Pittsburg.

Suspension of all freight east and west of Pittsburg was declared by the New York Central and the Pittsburgh and Lake Erie and Baltimore and Ohio roads. The big Gateway yards of the Pennsylvania Lines were tied up by the strike of more than 1500. Enginemen and firemen were reported taking a vote Saturday. Yardmen at Pitsburg, on the Pennsylvania lines were voting Saturday. At Monessen, the Lake Erie men were out. Sharon workers had walked out. West Kensington's switchmen joined the "outlaws."

BOY IS INJURED

Horse Runs Away, Throwing and Trampling Him.

Robert James, 12, 1015 Bellefontaine-ave., was seriously injured at 3 o'clock yesterday afternoon, when he was thrown from a horse at the fair grounds and trampled by the animal.

The owner of the horse had hitched it to a tree and returned to his home. The boy untied the horse, spectators say, and indulged in a ride. The animal ran away, throwing him to the ground and trampling him.

His left leg was badly cut above the knee. The boy was carried to his home by bystanders. He resides with his uncle and aunt, Mr. and Mrs. Wallace J. Gordon.

BIG SUM IS LOST

Pay for Crossing Lights Not Made by Railroad.

Loss to the city of \$3,592.50 thru failure to file charges for crossing lights against the D. T. & I. railroad company, covering the period from January 1902 to April 1914, interest, at the time the road went into hands of a receiver, is shown by a check of old accounts. City Auditor Rupert announced Saturday.

At the time Rupert took office January 1, 1916, he said a check was made and bills rendered for crossing lights, totalling \$4045.50, thru the city solicitor covering the period from 1902 up to the time for which no charges had been paid. In the meantime the company had gone into receivership which had been later lifted. The company therefore paid the city \$452.50 or the amount due after April 1, 1914, when the receivership was lifted, Rupert said.

MARCHING CLUB OF ELKS BEING RECRUITED FOR BIG CHICAGO CONVENTION

With a view to making a good showing at the annual grand lodge meeting in Chicago, this week the Elks, it is making a strong effort to secure every member to join the marching club of 1920 and be present at the meeting.

Lima lodge also wishes to show up in attendance at the grand lodge meeting they are the banner lodge and will fully maintain their reputation, when they entertain the 300 State association of Elks in annual convention next September.

The lodge has set the 2,000 mark as the membership goal in 1920-21 and the desire is to show prospective members for membership that to join this organization is a privilege.

The present lodge home and quarters is valued at \$250,000 and additions are now being made to give a finest and most completely equipped lodge home in the country. The Marching Club will have headquarters in Chicago adjoining the lake front, Michigan-ave. The lodge is planning to enter the marching club, a band and float.

LIMA FACES PAPERLESS DAYS UNLESS EMBARGOES ARE LIFTED IMMEDIATELY

Lima for the first time since the time in news-print is faced with paperless days, unless the freight embargoes are lifted during the forthcoming week.

The Republican-Gazette has two of print stranded, one in the city and one in eastern yards and has been running on loaned paper from competitor, the Times-Democrat.

The Times-Democrat has sufficient in storage for only two weeks, while the Daily News must cease publication in twenty days, unless cars now transit and loaded the Buffalo are released. Traffic managers of the city having the paper in charge, do no hope of being able to make overies, yesterday. Two cars for the News have been loaded at the city for a week but not permitted to start on their perilous journey.

HEALTH CONDITIONS IN COUNTY DECLARED GOOD

Health conditions in Allen county never better than at present, according to announcement by the city health commissioner Saturday.

At the present time Miss Josephine Lyons is the only nurse in the city health work. Previously, two were employed. Miss Lyons makes no over the county where her services are in demand.

With the exception of infantile diseases which annually affect children the spring, the county is practically free from disease, the health commissioner relates.

FEEL WORK ON ARGONNE HOTEL BUILDING IS UP

The construction work of the new Argonne Hotel at the corner of High and Elizabeth streets, is fast progressing. The structural iron frame of the tenth story was put up Saturday.

When completed the building will be the tallest structure in the city and will be among the best of its class in the Northwestern part of Ohio.

The hotel will be finished and ready for occupancy by the latter part of next fall according to a statement of F. E. Wood, contracting engineer of the work.

Fifty hundred tons of structural steel will be used in the frame. Ample provisions are being made for additional extensions, that may be needed later.

RADICAL POLITICS SHOWN IN NATION

Labour Votes Ruled G. O. P. Presidential Primary in Michigan.

HARPER OUT FOR AUDITOR

Jackson County Man Democratic Aspirant for State Office.

BY MARCUS COLUMBUS. — Let those who read the signs of the times in the daily happenings take note of the trend shown in the primary states, in the Republican as well as the Democratic party. The world is radical. It moves along those lines. The great currents released by the World War have not ceased flowing. There is no time for the Kapp-Leutwitz counter-revolution of reaction anywhere. The portentous news may be read by the discerning everywhere. If the news did not come trickling out of the other primaries it stood forth in mammoth size in Michigan, rushing and crashing like a glacier of older days.

Moreover, it may be noted that the Republican for vote has taken the same line (nature) that the Democratic long has had. Michigan shows it and the days of 2.11 a. m. boss-crow grow ever fewer as the zero hour of their fate approaches.

Having laid down a few cardinal propositions for demonstration we proceed to apply them to Ohio. Without doubt, the Michigan Republican vote shows that more than three-fourths of the vote was cast for those whom the voters thought were progressives in their tendencies. If they were deceived that does not detract from the basic proposition. Here, in this situation, does not the Ohio prospect? Senator Warren N. Harding cannot possibly appeal to any block of progressive voters. Probably he will not try to do so. A question arises as to whether Senator Hiram Johnson can deliver any substantial part of his strength to Harding. That is very much to be doubted. On this point the medium thru which this sentiment will vent itself. To this may be added the probability that the Johnson radical wave will cause many conservatives to join behind Wood to defeat Johnson, the one man whom Wall Street really fears. But there are so many factors to be calculated, that we must hasten on.

What was clear to everyone with reasonably keen discernment is now plain to every man in Ohio. It took the Michigan primary to convince a hazy of fellows that Attorney General A. Mitchell Palmer will not do as a candidate for the Presidency. The only man who had an organization ran last. The ought to be enough tip to anyone to lay off Palmer. It will be interesting to note how this will affect men running as candidates for Ohio delegates with a suspicion of Palmerism hanging to them. Palmer, as President-elect, with the defeat of the sedition legislation which was needless and roundly condemned by the country as it was a century ago when it broke up a great political party. Incidentally, Ohio had reason to chuckle seeing that the race put Edward L. Edwards in the lead along with Herbert C. Hoover, who has tossed Democracy a loving farewell. Incidentally, there are now promises that Michigan will join her neighbor to the South, Grand Old Ohio, at San Francisco.

When Major General Leonard Wood comes swinging back around the circle beginning on new Monday one or two pointed questions are to be asked him in some county seat where the atmosphere is right. An answer will be demanded. Hence, dear general, when your eyes fall on these words, be prepared and ready with an answer. It will come in this form: "Had you been a member of Congress, Senate or House, how would you have voted on the Cummins-Eck bill?" or "Had you been a member of the Senate would you have voted for the original Cummins bill?" There is a sockdologger for General Wood, no doubt of that and that's why some Harding man will rise in his place to ask the question. The other side to this proposition is that General Wood may holdily make a dash for the labor vote. It would cost him nothing to say that he is against the manifold iniquities of the railroad legislation and to stand for amendments that would shake the juice and sweat stuff out of it. Adopting the motto of the Ohio National Guard, all neutrals will say, "Hop to it."

One cannot read these Detroit figures without several thoughts coming to the surface. These figures are red. That's all there is to it. Of course, Johnson may have been helped by the revolt against bossism and lavish use of money but after all, the tremendous Detroit majority signified that the city of Detroit is more than pink. Incidentally, it tells us how dangerous is a government like Michigan which valued for the national government to sweep its house of Newberryism. Ohio, with her wise progress, would not have such a showing in any city. Still, there is much to be said about the result. Michigan is a doubtful state in the fall. But that doesn't matter. There will be a rally to some one to head of Johnson. It may be Wood and it may be some one else. Had Wood achieved a clear victory he would be as good as nominated today. But it is doubtful whether the set-back has hurt much and very probably not in Ohio. Johnson can hardly deliver his strength to Harding in Ohio, but he is certain to have the support of hundreds of written-in names. The pollster now comes to Ohio to remain until after the primary.

One is forced to the conviction, after hearing talking that city solicitors of Ohio do some talking that what the Buckeye state needs is more sense and fewer legal technicalities. The City Solicitors could generally find quibbles to prevent things being done to give relief to those suffering from the inordinate greed of profiteering landlords that they could think of doing things. Through it all there came to observers a clearer conviction that voters have never taught their responsibilities. Selection of officers is not a matter of spite or spleen or even of whim or caprice. It is solemn business if the voters fail of appreciation of this, they are sure to have trouble.

Solicitors had the audacity to say that rental boards with only moral sanction at their command could not check senseless greed. Well, if city administrations are universally crooked and cowardly, that is true, but if parades of rent profiteers be held, conducted by some stalwart even if fat-footed policemen, there will be no haste to und posts of honor in the procession. With a few exceptions the city solicitors seem not to have the faintest idea of government, whose purpose, let us say for their information, is to promote the general welfare.

There is one thing that may be said for John Harper, of Jackson County, whose name will adorn the Democratic primary list as an aspirant for Auditor of State—he has never bolted the ticket. Harper is certain to be a strong contender no matter how many come into the race. He is personally popular and has been a successful man of affairs, possessing qualities which entitle him to kindly consideration. His connection with Auditor of State A. V. Donahue as special representative to the state institutions and highway departments ought to commend him to many voters. It now seems probable that his opponent will be Joseph T. Tracy, of Seneca County. Joe lost the nomination four years ago because the alphabetical factor in the then "Jack" Arnold primary was against him. If Tracy is nominated by the Republicans and Harper by the Democrats, voters can shut their eyes and be content. If Ed Fallington is nominated it will be better for Harper, because Ed Fallington somehow recalls the old old days.

To those who maintain that America can have no interest in what is going on throughout the world, a cowardly proposition which every uniformed belle may be commended, the following excerpt from a story by Robert T. Small of Washington Post, a newspaper which gave no aid to the President in his contest for the League of Nations:

"American military experts, following the trend of radical effort in Europe, have arrived at the conclusion that the fate of the continent hangs upon the outcome of the struggle between Polish and Bolshevik forces now in progress to the east of the Pripiet marshes on the Russian frontier. Not only in Germany, but in other countries of central Europe and farther westward, conditions are such that the breaking down of the Polish barrier would be the signal for the renewal of general disorder in Europe and it is doubtful that many of the governments now in power would be able to withstand the engulfing flood of Bolshevism."

"Reports received from official quarters of the progress of the fighting on the Polish front are of a reassuring character. The Bolshevik armies have not only been checked but they have been driven back in some places and their strategic aim of securing control of the railroads has been defeated. But the struggle is not over, and the situation remains one of momentous concern not only to Europe but the rest of the world."

Petty quibbles and "reservations" aside from the ultimate question is to be read here, France and the Treaty of Versailles or Moscow and Bolshevism. Let us choose!

Wonder what it means that countries are again falling to quarrel about line fences. There was a time when neighbor quarrels over boundary lines made mighty good business for the lawyers and many a counsellor at law and his opponent shared two terms because of the "lawyer" habit. But men have become wiser since and the line fence business in Ohio would not keep one per cent of the army of barristers.

But now the counties take it up. Last winter Burke and Miami County tied into each other, the matter being settled by a temporary compromise, but the fences will be re-

noved at no distant future. Now it seems that Perry and Jackson Counties are at a feud over the fence between Hopewell and Madison Townships in Perry County are said to want a limit to come over to Licking, Newark is held more accessible than New Lexington, but the Capital road... when there isn't a deal behind this somewhat. Look out, fellows! Several kings and kaisers lost their thrones over line-fence wars.

Democrats are determined to have some good soldier man on the ticket for state office this year. With this fact in mind and the thought that A. V. Donahue will head it, let some good young soldier step forward. Every one and any one from a buck private to a major general is welcome. The unranked the better. There was talk on the soldier account of Major Charles H. Huston, of Mansfield, for Attorney General but it is doubtful if he would wish to contest and it has become known that Joseph McGhee will be a candidate again with a mighty good chance of victory. McGhee was a candidate in 1915, but lost out with the commander of the ticket, contributing his efforts toward the success of the head of it. Generally, it seems the Democrats want a young man's ticket this year and are in a fair way to get it unless the grey beards get together and undo the work of a lot of quick-moving young roosters.

If any one has taken to himself the trouble to follow the billboards of these columns, he will observe that nothing is assumed as a fact until it has been admitted by a sufficient number of men of all shades of opinion to make the statement subject to no change or come-back. So here we stand on taxation. Having refused to say previously that the General Assembly was a complete failure we awarded this proof from one of the same political faith as the majority. When Saul Zieglonka, who figured Cincinnati's plight in the line of his duty as City Solicitor, admits the ghastly tragedy other may add, "We know it all the time."

It ought to interest to know the reasons, hence we have the public duty of telling how future difficulties may be avoided. In the first place give the party which has the Governorship the legislative control and second, kick out those invidious hidden influences. Then let the problems be met in a broad sense of duty.

The truth to tell, the General Assembly was directed by outside influences, from its first to its last moment. It was elected with a view to ratification of the Eighteenth Amendment and to pass as many Crabbes as the Anti-Saloon League should say and when it had done those things it quit thinking as a body. It was tired, worn out. Of course, there were men with brains like the historian said of the army of King Charles I, they were much in the same position as the real soldiers of that ill-fated sovereign. "There were," said the scribe, "gentlemen and soldiers in the army, but the gentlemen were not soldiers and the soldiers were not gentlemen. Now, by analogy, there were thinkers and leaders in the General Assembly, but the leaders were not thinkers and the thinkers had not the numerical strength to be leaders. The same trouble was present at Washington as at Columbus, a box of men filled places to top at the word of a league and not to think for them. If the voters, even this time, they will demand a change. Otherwise, their burden will increase."

Now, any set of men with such lack of courage as to be dominated by Jim White and Rev. Fisher would, by cravet, fall a prey to other interests and it is not surprising that the lobbyists led the poor things around from the speaker chairs, like animals with bull rings in their noses. There

was never any discussion of legislation and one feeble attempt only was made to get consideration of a bill in the Committee of the Whole. There was not even consideration of measures in committee and one is almost ashamed to write of the scenes in the two branches, for fear that he will detract from the patriotism of the citizen. Luckily only a few at a time saw the spectacle. A sense of dignity and decorum shed from the proceedings and help to account for the lamentable failure which Zieglonka now records. It was not unusual to hear from the presiding officer's rostrum, "Now, boys, let's put this bill over." May Ohio never again be cursed by any body that as bad as the Eighty-third Assembly.

Now comes forward Toledo to complain that it is "floored" with raisin whisky which sells at \$4 to \$6 a quart. Whether the last mentioned bit of information is a boast or a lamentation, we cannot say. City Chemist Reed calls it a "coffin concoction" and warns the good people against it, more especially the kind that comes from Detroit. Then the good man volunteers a bit of information for which an overwhelming majority of Toledoans will thank him from the bottom of their hearts. Says he, "There is nothing dangerous in raisin whiskey if you have made it yourself, but the danger lies in buying it from persons one does not know. This is the test used sometimes by chemists which anyone can perform. Open the bottle as usual. Heat one end of a copper wire until it is red hot; then insert and withdraw it quickly. If the odor given forth is like formaldehyde, postpone your intended stimulation. If it is wondrous and denatured alcohol, if the wire smells like whiskey, or whatever beverage you intended to drink, that's what it is." Here is a let that the common council of Toledo raises Reed's salary on that bit of public service.

Cleveland Stages Bear Chase

CLEVELAND.—A bare idea is on in Cleveland Friday. The hunters were armed with large chunks of meat instead of guns.

The bear, a six months' old cub, escaped from the zoo Thursday night. An all-night hunt failed to locate the cub. Early Friday the chase was resumed and a cub was found perched in a tree in Brookside Park. Park guards and policemen tried to lure the animal by lifting hunks of meat to within smelling distance of his nose. The cub merely growled and showed formidable teeth.

A ring of guards was stationed around the tree. None dares climb up after the cub in his manifestly fighting mood. A waiting game was decided on by the guards. They hope to starve him into submission.

LIVE HESSIAN FLY IS EXHIBITED BY VAN NATTA

L. S. Van Natta, county farm agent has living specimens of the Hessian fly which has proved a destroyer of the wheat crop this year at his office in Memorial hall.

The insects were proposed in earth there, Mr. Van Natta is showing them hatched out and also in the pupa state, in which they live during the winter.

"If these biting frocks had come a couple of weeks later," Van Natta said, "farmers would not have been compelled to battle with the Hessian fly this season. The Hessian fly gave the insect an opportunity to multiply and the earth is filled with the pupa elements, ready to burst forth with the coming of spring."

"The fly so affects the grains of wheat the yield is lessened. I can safely predict there will be only a 50 per cent yield of wheat the coming season, due to the infection of Hessian fly," Van Natta said.

REICHSTAG CALLED TO MEET MONDAY

German Law Body Stirred by Action of France

BERLIN.—The reichstag has been called to meet Monday.

The government desires advice from the various political parties, it was learned on the important pending questions. The sessions will be of the greatest importance, political observers believed, because of the admitted seriousness of the situation caused by French occupation of the Rhine cities.

Reduction of the army as provided by the peace treaty, was to be considered, together with the problems brought up by French occupation.

The belief prevailed here that France will prolong her stay in Frankfurt and the other Rhine towns on the pretext that reduction of the German army has not been completed and that the German forces in the Ruhr district had not been removed.

Reports here Friday told of a new communist outbreak in the region of Tammernunde, where the reds were said to have declared a soviet republic.

Many a hero has transformed himself into a zero in the course of a three-minute banquet speech.

MAYOR WILL SPEAK

Mayor F. A. Burkhardt will address the Christian Endeavor society of Calvary Reformed church at the meeting at 8 o'clock Sunday night. The subject for discussion will be "Putting the Sun in Sunday."

Mayor Burkhardt's address will be along the lines indicated by the subject.

Extract Combined With Simple Drugs, Makes Wonderful Kidney and Bladder Treatment.

How amply nature provides! Even in corn silk is found medicine that properly used has proven a boon to mankind, suffering from urinary disturbances.

When kidney and bladder trouble occurs there is usually inflammation and congestion and experience shows that the concentrated extract of ordinary corn silk, combined with other simple drugs, will quickly correct such conditions and restore the normal action of kidneys and bladder before more serious conditions arise.

Corn silk extract is found in Balmwort Tablets, a modern and highly successful medicine that has become popularly used throughout the United States. Men and women everywhere now rely on Balmwort Tablets whenever any kidney or bladder trouble afflicts them.

Mr. John Shaws, 1151, South A street, Fort Smith, Ark., writes: "I have been taking your Balmwort Tablets for a very bad case of kidney trouble and am glad to say they have done me a great amount of good. I had to get up six or seven times a night, but since taking them I can sleep peacefully all night and do not have any more trouble. Thanking you, etc."

A trial will convince. Ask any leading druggist for Balmwort Tablets. Price \$1.00.—Adv.

The heavy and rigid car needs twice as many tires as the Light Weight Franklin to go the same distance.

This actually happened in Detroit. The Franklin is easy to move—hence requires less fuel to move it.

The Light Weight and the Flexibility of the Franklin Car Enable It to Give Better Results at Less Cost

20 miles to the gallon of gasoline
12,500 miles to the set of tires
50% slower yearly depreciation
(National Averages)

TO FRANKLIN OWNERS there is nothing remarkable about these results, because they are based on owners' figures. And the figures are no more unusual to one who knows the Franklin Car than these facts of its road-ability:

New York to Boston and return (458.8 miles) in 12 hours, 5 minutes—
Indianapolis to Syracuse and beyond (832.6 miles) in 22 1/2 hours—
Cincinnati to Cleveland and return (553 miles) in 15 hours, 45 minutes—
Boston to Syracuse and return (693 miles) in 24 hours, 20 minutes. Woman driver—
New York to Montreal (398 miles) in 9 hours, 59 minutes—
Waterloo, Ia., non-stop, dirt road record (865.4 miles) in 24 hours.

FOR COUGHS AND COLDS USE GLANDO PINE

Glando Pine is the most wonderful cough medicine made because it acts so pleasantly and quickly. It relieves all kinds of throat irritations, stops a cough and opens up the air passages. Glando Pine is a volatile liquid which gives off fumes when it comes in contact with the delicate membrane of the mouth and throat. These fumes enter the air cells of the bronchial tubes and lungs and cure the phlegm or mucus which fills the lungs in pneumonia and causes the tickling sensation in bronchitis. If Glando Pine is taken when the first signs of a cough or cold appears it will destroy cold, grip, or influenza germs that may be lodged there before they have time to get embedded into the delicate membranes of the lungs or bronchial tubes. Glando Pine should always be kept in the home so it can be used when the first indications of a cold appears. Glando Pine has a wonderful record for curing long standing chronic coughs. Its record is marvelous.

Glando Pine is put up in a concentrated form. Get three ounces (50 cents worth) of your druggist and mix it with any good syrup or honey and you will have a pint of the best cough medicine ever made. Keep it on hand and use it freely. It can be given to very young children in perfect safety. Full directions with each bottle.

VALUABLE HORSE SAVED

Expected Horse Would Die — Now Sleek and Healthy.

In reporting his experience, Mr. J. C. Hulse, of Rock Bridge Baths, Va., stated: "My horse is the best advertisement you would want for Dr. LeGear's Stock Powders. He was in a run down fix and poor and I thought he would die soon. I got some of Dr. LeGear's Stock Powders and today he is as fine looking horse as you can see in this section. I only used a few boxes of Dr. LeGear's Stock Powders."

Mr. Hulse benefited by the advice of Dr. LeGear, Graduate Veterinary Surgeon of 27 years' experience. By following the Doctor's treatment, you can keep your stock sleek and healthy. Here's his offer to you. Get a package of Dr. LeGear's Stock Powders from your dealer; feed it to your horses, milk cows, steers, hogs and sheep as per directions. If after a thorough trial, the results are not satisfactory, just return the empty carton and your money will be cheerfully refunded.—Dr. L. D. LeGear, Med. Co., St. Louis, Mo.

3-Grain Tablet Makes Flesh.

Anyone wishing to add to their weight, improve their color, and restore a normal condition of the stomach and nerves, should adopt the "wonderfully successful" treatment known to physicians and druggists as "3-grain hypodermic tablets," put up in sealed packages with full directions for home use. Red lips, pink cheeks, and 10 to 20 pounds increase in weight are not uncommon results. Try one or two months' use. Ask your well-stocked druggist for them.

Doing the BIG things FIRST

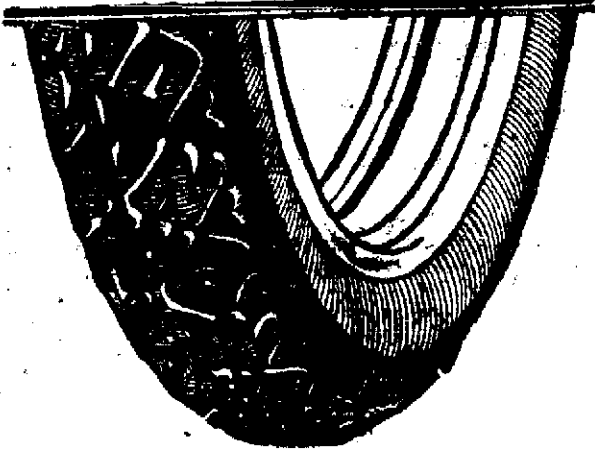

HERE is the first tire that ever was given a whole factory to itself!

Firestone Plant No. 2, with a capacity of 16,000 tires per day, is devoted solely to the production of the 3 1/2 inch size.

It was a problem made to order for Firestone — big volume production of a high grade article.

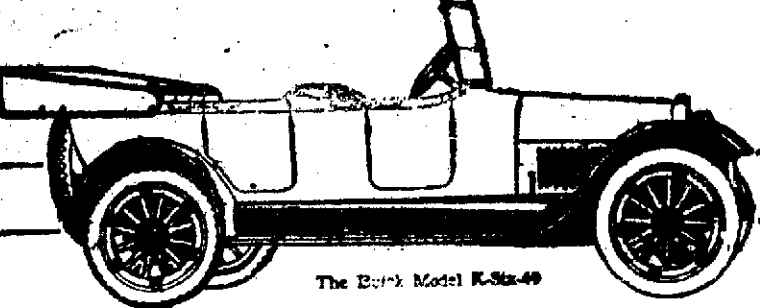

Firestone met it with a typical Firestone answer — a separate \$7,000,000 factory.

FUEL PROBLEM SOLVED

What Are You Going to Do, Mr. Man, When Your Gas Plays Out Or the Price of Coal Goes So High You Can't Buy It?

DON'T WORRY

But go to the Lima Oxo-Gas Co., and let them install a hotter, cheaper, cleaner and more satisfactory heat than you have ever used. It is a new fuel—a product of the Gloria Light Co., an old established firm, who have been manufacturing gas for 25 years. This new fuel burns 4% of Kerosene (coal oil) and 96% Air. Think of it—only 4% of fuel that costs anything and 96% of fuel that costs nothing. No coal to carry in, no ashes to carry out; no soot, no smoke or dirt; no more waiting for gas pressure, but you can own your own gas plant, cheaper than you are now paying for fuel—for you can cook, light and heat with our gas.

WAREHOUSE WILL BE ABANDONED

City Will Turn Building Into Municipal Garage.

Abandonment of what is known as the old water works warehouse, in rear of the court house and opposite to the tool house on the market house site to house all of the city's motor equipment excepting the fire and police machines, has been authorized by Service Director M. C. Clain.

In addition to an estimated saving to the city of about \$400 a year in rent and upkeep of the old warehouse, the new plan is expected to keep all the city equipment in better repair than having the fire and police care of the work with a person in charge.

McClain also expects to have a piece of property in rear of the city marked in some manner, such as a fence or other equipment, to keep off the city equipment from the lot and to have the lot fenced in with a fence of iron or steel.

It is added that the lot is in an angle of the old building, the lot will be provided with a table and square for the city equipment, and by the service department, the lot is concentrating even more to the lot, the department is expected to have proper supervision. The matter is expected to be decided by the city council, the plan is expected to be decided by the city council, the plan is expected to be decided by the city council.

DR. ADAMS AT HOME.

BIG EATERS GET KIDNEY TROUBLE

Take Salts at first sign of Bladder Irritation or Backache.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night, if you suffer with sick headaches or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive, cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

9-YEAR-OLD GIRL TRAPS WILDCAT IN WOODS

NORTHEAST CARRY, Maine.—The piercing cry of the wildcat strikes terror in the hearts of some children and even adults, but not that of Louise Smith, nine years old, of this town. This little huntress trapped one of these animals, bigger than herself, in the woods near here, beat him over the head with a club until he forever ceased to snarl and then carried him home on her back, all unharmed.

Louise is 1 foot 3 inches in height. The cat measured 4 feet, 7 inches and weighed thirty-six pounds.

A train of ills

Often Leads Those Who Neglect Costive Bowels.

Indigestion, Headaches, Bad Blood, Rheumatism, Pimples, Boils, Etc., Are Only a Few.

Try Eubonia Sulphur Tablets.

One of the most common of our troubles is constipation, and, when it is neglected, it leads to a train of ills. You can surely get rid of it, taking either, while at the same time you can rid the system of all impurities of impurities which may be in your blood. Sulphur Tablets and sulphur tablets act beneficially on the stomach, liver, kidneys, bowels and blood, and once you know their cheapness and their value, nothing would induce you to be without them.

Mrs. A. B. Coleman, 1605 Hackberry St., Astoria, Ore., writes: "I use your Sulphur Tablets for my whole family and they are just simply fine." Guaranteed satisfactory and sold by all good druggists—Globe—Ad.

TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revolution if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

School Children Need Lots of Good Rich Milk

Children who do not get along well in school are often found to be underfed. They may get plenty of food of a sort, but not the right kind to make clear brains and sturdy, healthy bodies.

A quart of good rich milk each day is not too much to give your boy or girl at school.

Milk is the perfect food. It makes bone and muscle. It is easily digested by the growing child.

To have smart children, give them plenty of milk.

SPORT CHATTER OF LOCAL INTEREST

The whinny of the thoroughbred is calling followers of the racing sport.

Horsemen are turning their faces Southward, race followers are perusing the record books winking up to the latest woe and general opinion is that the race game will witness its most successful season.

The skies were never brighter, turfmen were never happier. Fans were never more enthusiastic.

Lima and Allen county followers of the horse sport are united with enthusiasm over the "sport of kings" and racing fans here predict that 1939 will be the "best ever."

First of the race horse men around the city to answer the call of the track is Joe Gahagan, veteran trainer and owner of St. Malin.

Gahagan was never more enthused over the racing game than this year.

Joe talks cats and furly lives racing at this time and from all appearances the local man will be entirely wrapped in the sport this season.

"I am going to devote more time to the game this year than ever before," Gahagan says.

This statement follows announcement of disposal of Gahagan's lease on the Marshall House hotel, Main and Wayne streets.

Gahagan says he disposed of the hotel in order that he might spend more time at his favorite pastime.

The Lima racing set has entered into contract for a condition and race stable at George Stambaugh, Ada.

Stambaugh has one of the most promising collections of trotting stallions in the county, and with Gahagan at the helm the Ada man is counting on victories in Ohio Circuit and Grand Circuit events the coming months.

"Stambaugh surely has several good pieces of horse flesh and I believe that he will capture some stakes with his collection," Gahagan says.

Jan Jolla and Dawson Thursday two of Stambaugh's trainers, are regarded by Gahagan as promising material.

Gahagan will take charge of the Stambaugh stable with a few weeks.

MAYOR BURKHARDT OUT OF PIN MEET

Mayor Burkhardt cannot win the bowling tournament honors but it is the same he cannot lose.

His Honor is not entered.

"Wouldn't let me in," said the mayor yesterday when speaking of the city bowling tournament being held at the Broadway alley.

Ahe mayor does not insinuate that he is too powerful a pinswatter or those entered in the meet. He is merely mourning his tough luck.

He is, however, a little disappointed that he should be barred from the first round.

The city's chief official, if some efforts should be made to take a city maple caterpillar and it entered the tournament he would have a good time.

AMERICA HAS FINE CROP OF ALL AROUND OYLYMPIC MEN

BY JACK VELOCK
International News Sporting Editor.
NEW YORK.—One of America's most brilliant athletes was counted out as a possible Olympic point winner recently when Robert Legendre, national pentathlon champion, and winner of that event in the later-Allied games in Paris, broke his leg in training at Georgetown University.

As a result of this unfortunate accident Legendre will be unable to compete in the pentathlon and decathlon finals at Harvard in July, and his loss is keenly felt, for he has been generally regarded as one of the brightest prospects since the days of Jim Thorpe.

Fortunately, however, he is able to coach a number of the dozen all-around athletes who are being trained by him at Georgetown. One of these is Earl Johnson, Michigan, who may be counted on to offer the best record in the pentathlon and decathlon events at Antwerp next summer.

Legendre, though regrettable, is by no means a one-horse team to the hopes of America. There are a number of other athletes who will vie with one another for the honor of representing America in the Olympic games.

Among the athletes who are being trained by Legendre are: S. Harrison, Princeton; Sol Butler of Duke University; C. L. Lewis of Missouri University; Arthur Tuck, Melbourn, A. C. Portland, Ore.; L. J. Karim, Young Men's Order of Deacons, New York; Earl Johnson, Michigan; and William Youn, Redlands, California.

Here is a brilliant constellation of athletes who are being trained by Legendre. They are all-around athletes who are being trained by Legendre.

BASEBALL VIEWS OF FANS

Will independent baseball be popular here? Majority of fans in this city believe that such a brand of the national pastime will prove the most popular which could be offered.

Here is what a few of the old time baseball men think of this brand of ball.

FRANK CHEW, one of the prime movers in league baseball of the city, "Independent ball is the only type for this city. We have had a taste of league ball and that morsel has been very bitter. Give the fans here a crackerjack semi pro team playing every Sunday and you will serve to the best interest of the game here. I am in favor of the independent team which Bernie Holloran is going to put in the field and believe that the club will be a success."

JAMES MORTON, Secretary Merchants' Association, baseball fan, "High-class independent baseball has won favor with Lima fans who have witnessed both league and professional ball. The professional ball in larger cities is the best, but in a city the size of Lima such a brand of ball has little chance for existence. Give them independent ball and give them a good brand and you will have a satisfied baseball community."

J. T. KAUFMAN, Secretary Ohio Steel, and baseball baker, "The independent league will be under way with eight clubs and the circuit should be a success. With industrial ball taking care of the Saturday and a good independent team is the ticket for Sunday. In my opinion an independent team is the best possible."

SCHOOL NINE AT CENTRAL

Positive information has just been received that Central Hi school will have a representative baseball nine this season.

The decision of the school officials to put the diamond sport on the list of school athletics came about as the result of constant clamoring for the game by pupils.

Last season's baseball career at Central Hi was mixed up with a lot of hard luck. Rain causing postponement of six or eight scheduled games resulted in poor year financially.

The first practice of the season will be held Monday afternoon at the College field. Interest in the leather sport among the students is at a very high point and indications are that the school will turn out a winning team.

Coach Hauenstein has charge of the boys. He states that luck has favored him this season. With the exception of the pitcher, he will have all the players of last year's team.

Tho the line-up has not been officially settled, it is probable that the following boys will comprise the team: Russell Johnson, Godfrey, Louis Edwards, Herbert Hay, Verrel, Polser, Warren Accordeman, Orlando Kohli, John Cashman and Doran Lowman.

However none of the positions are certain and the selections will depend upon practice shown next week.

Games with nearby cities such as Ada, Van Wert and Bluffton will be played soon.

It has not been definitely decided yet whether Central will have a titular clash with South.

It is unmistakably the earnest desire of students of both schools to have a game to decide the city school baseball championship.

CENTRAL RUGBY OUTLOOK ROSY

That Central Hi school will have a crack winning football aggregation next season is judgment reached after seeing the material from which the coach will pick his team.

A meeting of all candidates for next year's football squad was called last week.

Over sixty boys answered the call. Indications are that there will be more added to the list.

Under the tutelage of Coach Wallace, the candidates were put thru preliminary training in the gymnasium.

The students will not engage in scrimmages this spring. The coach intends to have them ready for this with the reopening of school next fall.

Central will have a veteran team next year. Only three players, Darby, Douglas and Coon graduating.

The coming team will be piloted by Stanley Blunck, one of the scrappiest and most tenacious players ever turned out by the school.

GEREMONY AT SOX OPENER

CHICAGO.—Gala festivities will mark the opening of the big league baseball season here next Wednesday when the White Sox and Detroit Tigers clash in the first game of the year.

The old crowd of fans who took to the streets to celebrate the opening of the season in past years are expected to be organized and will conduct an automobile parade to the Sox park.

Harlie Comiskey plans to have the usual big brass band on hand. Tickets for the game were placed on sale Saturday and juggling from the way they were grabbed up a capacity crowd will see the initial contest.

Thirty thousand are expected to witness the game.

The Sox completed their training on Saturday with an exhibition game at Milwaukee, where the Braves returned to Chicago Sunday night.

CUBAN PICKS NEW YORK

Mike Gonzales, who is not only a good catcher but a good judge of ability in other ball players, individually or en masse is of the opinion that the Glens are more formidable today than they were a year ago.

He has a sound basis for his belief. The pitching and catching staffs are stronger than they were last year. The outfield is a tried and true one.

After this inter-city meet Coach Hendershot expects to weed out the regular club nine. He is bound to arrange for games with Ada, Van Wert and Bluffton. Efforts are being made to get more clubs with neighboring cities.

This is the first time in the history of baseball that a high school team has a winning season in the American pastime.

The team will not probably be made up of the following pupils: Roeder, Mowery, Duppre, Brook, Burl, Gorman, Sater, Hughes, McClain, Retford and Cashman.

BROWNS GRAB FIFTH

ST. LOUIS.—The St. Louis Browns Saturday won the fifth game of the city major league series 2 to 1. Saturday's victory was the Cardinals' second in the series.

ONE FOR SOX STOPS
DES MOINES Ia.—Opportunity sitting enabled the White Sox to defeat Des Moines in a ten-inning game here by the score of 6 to 5.

The score: R H E
Sox 6 9 2
Des Moines 5 7 2

Lowdermilk and Lees, Browns; Kleiser, Pilmer and Anderson, Long.

CUB STARS WIN
KANSAS CITY.—The star battery of the Chicago Cubs, Alexander and Killifer, staged a victory here Saturday and a rookie tandem of pitchers, Weber and Newark, topped off the Kansas City Blues 8 to 6.

The score: R H E
Chicago 8 11 0
Kansas City 6 7 4

RUTH FAILS TO PLEASE FANS

NEW YORK.—Thousands of fans, who had gathered to see the first game of the season, were disappointed to find Ruth in a New York uniform.

The 11,000 home run king not only disappointed them by failing to get a hit but the Yankees fell down on the job and dropped a 7-1 inning game to the Robins by a score of 1 to 0.

The Robins came along in one of the 11th inning, when they slugged over the right field fence, which went foul.

A double and two single gave the Dodgers two runs in the third but the count was evened by the Yankees in the second and fifth innings.

The two teams tied until the 11th when Knutson singled and scored on Ward's sacrifice and Elliott's single.

The score: R H E
Yankees 1 0 0
Dodgers 1 1 0

Mayes, Phommphen and Hoffman and Knutson, Elliott, Mitchell and Taylor pitched.

MEADOWS BLOWS AND PHILS LOSE

COLUMBUS, Ohio.—Meadows blew up in the eighth inning when Tinker's American Association team got to him for four runs on as many hits and shut out the Phillies 4 to 0.

The gridd weather kept the attendance down to less than 1,000.

The score: R H E
Phillies 0 0 0
Columbus 4 13 0

The pleasure of singing the word rolls is made delightfully easy on the Apollo player piano, because you can instantly change the key to suit your own voice. You will also appreciate the Dynaline, which makes it easy for you to follow the interpretations of master pianists.

The APOLLO PLAYER PIANO

is so humanly responsive to every shade of music expression, that it is a perfect outlet to your individual feeling. The Tempo is perfect, owing to the spring motor with Apollo exclusive patented control. It is not influenced or changed by pedal pressure. Please remember that we are here to serve you. We will gladly demonstrate the Apollo to you at any time without obligation on your part.

day evening with Mrs. Emma Keller.

TALENTED PUPIL GIVES RECITAL

Miss Katherine Gramm

No more artistic recital has ever
been given in Lima than on Friday
evening, when Miss Katherine Gramm
charming daughter of Mr. and Mrs.
B. A. Gramm, Cole-st., was present-
ed by her talented instructor, Mrs.
Ida Mae Holder, Toledo. Mrs.
Holder has for the past year devoted
much time to instructing Miss Gramm
in the beautiful art of playing upon
the modern orchestral harp. This in-
strument is known to have the full-
est and richest tone of all stringed
instruments, coming down to the
present time from the Egyptian Celts
and other peoples of olden times. An-
cient history and romance literature
are full of allusions to this instru-
ment.

Trinity church was filled with mu-
sic lovers and invited guests of the
young student. The altar was
adorned with palms and baskets of
attractive roses were placed on pe-
dastals near the two harps.

The Women's Home Missionary
Society of the Trinity church, will
meet Tuesday afternoon at the
church. Mrs. C. L. Keyser, Mrs. G.
W. Wright, Mrs. E. Ramsdell and
Mrs. Beecher Moke will be hostesses.
The topic of the afternoon will be
"Our Negro Work." Mrs. S. M.
Ramsdell will read "The Law of the
Home Born." Mrs. Gale Dunifon
will favor with several violin num-
bers and Mrs. Joe Davison will sing
with violin obligato by Mrs. Dunifon.
"Nap Exercise" will be discussed by
Mrs. Foss Cartman, Mrs. H. D. Zur-
mehley and Mrs. Olive Kitchen.
Mrs. Helen Hadsell will talk. Mrs.
J. Morton will read a paper on "Mite
Box."

This will also be a reception to
all new members.

On account of the irregularities of
the Delphian Club program, the
members will be entertained at the
Regent Tea Room on Wednesday af-
ternoon at 3:30 with Mrs. Guy Bay-
ley president of the Club, acting as
hostess.

Mrs. Dean Jennings, of south
Pine-st., charmingly entertained the
members of the W. D. C. Club and
a few guests at her home on Thurs-
day evening. Buchre was played
thruout the evening and at the close
of the game, Mrs. John Evers held
high score and was awarded a dainty
gift, while Mrs. L. Buscher was
consoled. The rooms of the Jean-
ings home were tastefully arranged
with spring flowers and potted
plants and at a late hour a delicious
three course luncheon was served
by the hostess, assisted by Mrs. Wil-
liam Haines. Club members pres-
ent included: Mrs. Homer Evers,
Mrs. John Smith, Mrs. L. Hoff, Mrs.
Joseph Teigenbusch, Mrs. G. Evers,
Mrs. L. Buscher, and daughters, Z-
junta and Madeline, Mrs. John Ev-
ers, and Mrs. John Shively. The
guests were Mrs. R. Winkler and

W. C. T. U. will be entertained
Tuesday afternoon at 2 o'clock at
the Y. W. C. A. with Mrs. Mullen-
hour as hostess. Mrs. W. E. Cray-
ton will talk Political Equality.

Mrs. Ross Wolfe will entertain the
members of the Arbutus club at her
home on Monday evening.

Mrs. W. R. Stapleton entertained
the East Division of the Zion Luth-
eran Ladies Aid Society at her home
on E. Market-st., Thursday after-
noon. Mrs. Ivan Ridenour was suc-
cessful in the contest.

L. O. Trampert, Mrs. Irvin Ridenour,
Mrs. Carl Strobel, Mrs. W. Smith and
the hostess.

An interesting social meeting of
the King's Daughters of the First Re-
formed at the Parish house on
Thursday evening. A playette was
presented by a number of the mem-
bers, after which a social time was
enjoyed. Refreshments were serv-
ed.

The Lotus Club will meet at the
home of Mrs. R. B. Holland, W.
Market-st., on Monday afternoon.

How to Make Up The Dolly Sisters

For the home, the street and social affairs. Same, sensible suggestions by

THE ABUSE OF LIP ROUGE

The last thing to be done before applying face powder is to tend to the lips. There is much to learn about this work of art. In the first

place do not use liquid rouge. The lips become chapped.

Before using any rouge, massage the lips with soft cream. Remove this with a soft cloth. Take a grease rouge, and be certain that it isn't an old red mixture.

Insist upon getting rouge with orange color in it.

If the mouth is large do not put the rouge too near the corners, put powder there instead. If the lips are narrow use the tips of your finger to make the cupid bow at the center of the lips, to increase their width.

Be careful if the lips are thick, and do not put the rouge too far out on the upper lip. Never rouge beyond the corners of the mouth, no matter how small it may be.

Do not let the lip rouge go one bit beyond the pink of the lip line. It can be a lesser depth, but never beyond the natural line. If you get the correct grease rouge you can powder over it and get a beautiful and natural color.

Be certain before applying powder that the rouge has been thoroughly rubbed into the lips, or it will settle in the tiny crevices and make the lips look streaked or veined with red.

One of the worst faults of those who make up is the way they use lip rouge. They take a lip stick from their purses in cafes and theaters, and apply the rouge as carelessly as they would eat candy, and the result is hideous to behold.

In an impressive marriage service, celebrated Saturday night at eight o'clock, at the home of the bride's parents, Mr. and Mrs. Elmer L. Andrews, 917 W. High-st., Miss Martha Miriam Andrews, eldest daughter, became the bride of Harold J. Seymour, New York City, son of Mr. and Mrs. Frederick Seymour, 610 W. Market-st.

The double ring ceremony was read the vows pledged and the benediction pronounced before an altar of palms in the living rooms of the home, which were in festal array with a profusion of spring blossoms. Rev. Thomas Knox, pastor of Market Street Presbyterian church, was the officiating clergyman.

The bride was lovely in a gown of net, over ivory satin. It was embellished with a veil of tulle, which hung several yards in length and fell in graceful folds at the back. A shower bouquet of roses and valley lilies completed the costume.

Miss Helen Basinger, a cousin, was maid of honor. She wore a handsome gown of pink tulle, simply made, and further ornamented with a corsage of pink roses. Ned Seymour, student at Michigan university, was best man for the bride.

Blanche Selinger, Andrews, sister, was ring-bearer. The veil was carried by Martha Jane Lafferty, First. Elizabeth and Mary Alta Douglas drew the white ribbons which formed the arch in which the bride party descended the stairs.

The young misses were gowned in white. Miss Nellie Basinger added to the artistic setting with wedding music and Miss Dorothy Daniel, Montpelier, Ind., sang.

Pink and white was the color scheme carried out in the supper served after the ceremony. Mr. and Mrs. Seymour left during the evening for New York City where they will reside. The bride traveled in a modish suit, handsomely tailored.

The bride is a graduate of Blaker's Kindergarten school, Indianapolis, and has been engaged as a teacher in Lima primary grades. She is a lovely young woman and has gathered about her a wide circle of admiring friends, who regret her marriage takes her away from the city. She will be much missed in Lima.

Mr. Seymour is in charge of college publicity work in the east, with headquarters in New York. He has risen to the highest place in the profession.

Mr. and Mrs. Henry Deisel, Sr., and Mrs. Henry Wemmer, Mr. and Mrs. T. R. Schoenover, Mr. and Mrs. Fred Gooding, and William Wemmer Jr., attended the ceremony.

Mersey Circle, King's Daughters, will hold their monthly meeting Wednesday afternoon with Mrs. C. E. Schell, 308 S. Pierce-st. The morning will be spent in sewing for philanthropic purposes. In the afternoon plans will be made for the annual May-day breakfast, to be held May 1 at Trinity M. E. church parlors.

Mrs. Grace Eock, president of the circle, will have the tickets on hand that day to distribute to the members for selling. The breakfast this year promises to be another delightful social affair, to be enjoyed, but the sweetest musical numbers in a setting of spring. The funds secured go to philanthropic purposes.

Assistant hostesses will be Mrs. Frank Moke, Mrs. Oliver Steiner and Mrs. Benjamin Thomas.

Lucine Finch will be heard in the Congregational church Wednesday at 2:30 o'clock before the members of the Woman's Music club and their friends. Miss Finch being a southern woman has a sympathetic appreciation of the negro character, with unusual facility in giving this character expression, both in voice and gesture. She will give a group of readings "My Mammy's Stories."

Mrs. George Carter, 1115 W. Market-st., is entertaining Miss Margaret Cooper, Janesville, Wis. Honoring Miss Cooper Miss Janet White entertained quite informally at dancing Saturday evening at her home.

IT'S THE BEST GAME IN THE WORLD

IT'S JUST TO BE GLAD, DR. FRANK G. SMITH—WELL KNOWN MINISTER OF KANSAS CITY, MISSOURI; DECLARES IN SERMON PRINTED IN K. OF C. TIMES.

URGES CONGREGATION TO FOLLOW EXAMPLE OF "POLLYANNA"

Matthew, Mark, Luke and John—and Pollyanna. To the four biblical chroniclers of the gospel, Dr. Frank G. Smith, pastor of the First Congregational church, added the player of "the glad game" in his sermon last night on "The Gospel to Pollyanna." Pollyanna, it will be remembered, is the little girl who transformed a whole town by teaching them to play the glad game—to look for something pleasant in everything—in the book named for her.

"If I had more magic and with a wave of which I could bring into the world or give the world anything I wished, I know of no greater favor or benefit I might order up by my magic than to have the essence of Pollyanna's glad game spread over it," Dr. Smith told his audience.

LEARNS THE GLAD GAME. "Now, that sounds peculiar coming from a minister," Dr. Smith added, "Especially when I have the Good Book here so close. But there is so much, so very much of the gospel in that little story of Pollyanna."

"I believe that it is the duty and the business of every Christian to open his heart and allow so much of the sunshine of Christ and of life to fill it that he will see gladness in everything. It is his business as a follower of Christ to go happy out of every circumstance."

"I wonder how many have read the story of 'Pollyanna'?" Dr. Smith asked as he began his story of the book. He spoke more as an introduction than as a question, but several sitting near the front could not keep their hands down.

FOLLOW HER MOTTO. "All right, then, I'll ask it," spoke the minister. The result was a surprise to all there. Those in the well-lighted room who did not hold up their hands as having read the story were conspicuous.

Dr. Smith recounted Pollyanna's advent into the small town where she was to make her home with her aunt and her conversion of the town to the glad game philosophy. He finished with the accident in which Pollyanna is made a cripple and the meaning of the thoughts she had soon among her neighbors and friends while she was confined to a bed; and with Pollyanna's motto after she was again able to walk: "You never know how good you are until you've had them and lost them, and found them again."

LEIGH MITCHELL HODGES, probably the country's best-known author, has always been very enthusiastic over "Pollyanna" and this is what he wrote in the North American, Philadelphia, Pa., under the caption of "The Optimist."

On a sheet of blue paper came to me the other day a letter which closed with this paragraph:

"I think you must have read 'Pollyanna.' If you have not, I will send you a copy. I think I shall do it anyway. I have read it you can give it to some one else, and thus keep the ball rolling."

This letter was signed by a

Philadelphian whose sobriety, industry and initiative have earned him a place in the ranks of best known Americans. Not long ago a globe-girdler of international note told me that John Wanamaker's name and fame were more widespread, especially in utterly out-of-the-way places, than Roosevelt's or Edison's.

With the letter came "POLLYANNA." It looks like a book, three hundred and ten pages bound in blue, but it is so much more than a book that the term is lost in remembrance of what it really is.

"POLLYANNA" is a little girl of eleven, going on twelve. She is a sunbeam, the kind so ordinary-eyed folk can like us can look at her without having to turn away because of her brightness.

She steps out of page eighteen in a red-checked gingham dress—the print says she steps into Beldingville, but the book is wrong. Anyhow, as I said before, this is not a book.

She steps into your heart. With her eager shout of "Oh, I am so glad, Glad, GLAD to see you!" she throws her arms around you, and unless I'm all wrong in what I have figured out about hearts—common garden hearts that bloom, or droop, in average human soil—she comes to stay.

To stay till some day, somewhere you or I stretch out a weak, trembling hand to feel if there's a railing on the bridge.

And though we may not say so and though we may not know it, something of POLLYANNA will be there at the parting to make it more what it should be—a glad going.

For surely, surely, should attend each going-out to better things!

I had not read POLLYANNA. Even now, I can say truly, I have not "read" POLLYANNA. You do not "read" this little girl. You just return her shout of gladness with a smile and high thanks that she has come your way—your weary way, perhaps. You just fold her to your heart and make her sit down in the very best room of your life and tell her she can never, never go away.

Then she teaches you her game of gladness—it is a wonderful game, though not always easy to learn—and she leads you through all sorts of sad and dark and moldy and ramshackle human houses. But when you look back at them, they are neither sad nor dark nor moldy nor ramshackle, for this little girl's gladness has made them all over into bright, cheery, pleasant places.

And you, too, begin to get glad, because you begin to see that it is all so POSSIBLE. There, that is what keeps POLLYANNA from being a "book!" It's her POSSIBILITY.

You smile a lot and all the time tears keep coming and water the crop of smiles and keep them growing. After you have known POLLYANNA a couple of months you begin to wonder if all your life is a field of smiles in need of watering. You are happy and so helped and so dim-eyed!

(Signed) Leigh Mitchell Hodges

SPANISH PLAY IS BEING REMODELED

Many Dramas Spring Up From Late Broadway Production

REVIEW OF THE RIALTO

"The Ouija Board" New Thrill In New York.

By DIXIE HINES
NEW YORK.—Early in the season a play called "The Passion Flower" was produced in New York. It was a powerful Spanish drama, replete with characters typical of that superstitious and religious country. Nance O'Neill, who does the most powerful acting on Broadway, sounded a note of the supernatural, which has since formed the theme of many plays, two of which have just come to Broadway. "When my mother was alive," Raimunda, the character impersonated by Miss O'Neill speaks, "we always laughed because she used to say that many a dead had been foretold. We never believed it, but now I know it is true. The dead do not leave us when they die, though we lay them in the ground. They walk by the side of those that they loved in this life, of those that they hated with a hate that was stronger than death. They are with us day and night. We do not see them but they whisper in our ears . . . they put thoughts in our mind which we never can believe could be part of ourselves. This was the birth of the spiritualistic theme in plays of the current season, and while "The Passion Flower" is far removed from this category, it did act as the forerunner of at least a score that have since been produced.

The big thrill of the past week was a play called "The Ouija Board," by Crane Wilbur, the moving picture actor. It was staged with consummate skill by William Gilmore, and produced under the management of A. H. Woods. It was superbly acted by the author, George Paul, Edward Ellis, Stewart Wilson, Regina Wallace and others. But the thrill comes from the stage tricks, the somber and "spooky" lights which come and go with mysterious indecision. It was the sort of play which gives one cold chills, and frightens into a delightful sense of mysterious fear. No play this season has been so successful in holding the spirit of theatrical spiritualism as this play, which tells of a spurious medium who, to gain his ends, practices deception upon those who come to him. The second act, with its mysterious lights and ravings, was one of the most effective acted this year. The automatic riting, which is the peculiar form of manifestation assumed by the ether, and which he uses to delude his clients, proves his undoing, when he control takes possession of him and the writings became real messages from his wife in the other world. They tell of the trusting and creased husband that the medium none other than the man who lined his life, wrecked her happiness and brought her to her death. Whereupon the husband stabs the medium and the curtain falls upon the hand of the dead man transcribing another message which clears a murder not yet committed. The play is highly improbable, but it is a play which has a thrill that no evening could well support, and the skill of the cast selected makes what may be lacking in the material "The Ouija Board" is one of the best thrillers of a season of thrillers, we will say.

Within a fortnight the children's children's theatre field. Miss Van tates will enjoy the distinction of new and potent element in Rachel arton Butler, the playwright, hose delightful social satire, Mama's Affairs' has been and remains one of the chief joys of the recent theatrical season. Miss urter has adapted "Alice in Wonderland" which will serve as her first production in the series she intends giving for the little ones. She has selected the Little Theatre and here she will stage this play and eventually an entire repertoire of famous fairy tales.

Nancy Van Kirk is another artist, and profitable worker in the children's theatre field. Miss Van rk has elected to give a series of entertainments for children which eventually will be strung together a chain which will connect the important cities of the country er forte is song and story, built upon national characteristics, costumes, foreign countries and historical ferences. She has been happily successful in starring for the kiddies in the long deferred and much dered children's theatre movement omises finally to become an accomplishment.

Some of the most notable plays oduced in New York and eventual- in other cities, have been born the much derided "special matinee" or "special performance" system. "Beyond the Horizon" is one of the best of these. "An In-inary Invalid" and the Hampton rson of "Hamlet." Grace Gris-ld, who is distinguished for the elligence of her work in promot- that which is good in the thea- plans a series of productions, first of which will consist of e short plays, one from her own y, the other another American edy and the third the Italian satic, "Rights of Soul," by Glu-ve Glasco.

Ed Wynn's "Carnival," a sort of mer show, comes this week to New Amsterdam, "Lassie," made r from "Kitty Mackay" makes its ut as a music play, and "Florida" rgraphs in that it is en route to Century. Otherwise the temples of the Rialto remains unchanged e for the discomfort caused by pphesial of that famous street ch appears to be in eruption new theatre building.

Francis X. Bushman and Beverly Bayne, coming in person to the Faurot next Monday night in the spoken drama, "The Master Thief."

Coming To Faurot

Coming to the Faurot next Monday night Francis X. Bushman and Beverly Bayne, who have returned to the speaking dramatic stage as Oliver Morosco stars, will agore their hosts of screen admirers an opportunity to avail themselves of the touch of real life, in person and voice, which was the only touch which their wonderfully successful pictures necessarily lacked.

Back in the spoken drama with all that interesting talent which their shadows put forth on the screen, Bushman and Bayne are staging a new dramatic stage combination, such as may be likened only to the attraction of Sothern and Marlowe with a superb freshness of youth and artistry that is making for them a real conquest in the greater field of theater amusement.

Oliver Morosco has apparently made a good selection in "The Master Thief," which is heralded as a fascinating mystery play by Edward E. Rose, and is said to recall the elements of such memorable successes as "Raffles," "Sherlock Holmes," "Arcim Lupan" and "Secret Service" by which it may be assumed that it provides a fund of high tension dramatics along the lines and characteristics of those well known theatrical successes.

Theatergoers who attend the Faurot during the Bushman and Bayne engagement Monday night will find

the real life side of these famous screen favorites much more interesting and satisfying than their pictures ever could have been made. To the sterling beauty and well groomed personality of the pretty Miss Bayne will be added the charm of her voice and the heroic and youthful figure of Mr. Bushman will be able to speak the lines which during his picture career could not be typed and read on the screen.

FEMININE STARS GALORE COMING

Many Features to Be Offered During Week at Playhouses

CALENDAR IS ATTRACTIVE

Offering for Today Should Please Any Taste

By ESTHER WAGNER
A TTRACTIONS at local movie houses for the coming week bid fair to out-shine any features seen here for several weeks. Feminine stars will hold sway, there being scarcely a one movie odol of the opposite sex scheduled to appear. We have with us this week Mary Pickford, Constance Talmadge, Dorothy Gish, Alice Brady, Dorothy Dalton, Marion Davies and Dolores Casanelli of the fair sex, and Owen Moore and Harry Morey will share masculine honors.

One of the big features of the week will be the showing of "Pollyanna" at the Regent for five days, starting Tuesday. Most everyone has read the "Glad Book" and many of us have profited thereby. The picture that created such a sensation here a few weeks ago, "In Search of a Sinner," with Constance Talmadge, is at the Regent today and tomorrow. This picture has been described as "naughty but nice" and is said to be Connie's best picture.

Owen Moore, Selnick star is at the Lyric theatre today in a new production entitled "Sooner or Later." Mr. Moore's drollery is always a delight to fans. The picture probably got its name from the moral, that sooner or later every man falls for some girl, altho he may be a confirmed woman-hater.

"L'Apache" is the name of the new picture at the Faurot, starring Dorothy Dalton. Miss Dalton has a dual role in this production and is as charming as ever. On Tuesday and Wednesday "The Cinema Murder" and featuring Marion Davies will be the attraction at the Faurot, and the last of the week will see Alice Brady in "Sinners." Miss Brady needs no introduction to theatergoers, and her wonderful gowns are always an attraction.

Altho not generally heralded as one of the screen stars, Dolores Casanelli, to be seen at the Lyric on Wednesday and Thursday, is one of the most beautiful actresses of the silent drama. She is starred in the feature "The Web of Deceit." Constance Talmadge is at the Majestic today in a return engagement of "Happiness is a Mode," with Harrison Ford co-starring. The work of the pair is well known. At the Orpheum today Harry Morey in "Beauty Proof" is the motion picture feature. Altho this picture was advertised here extensively a few weeks ago, it was never shown, owing to an avoidable delay.

One of the most cyclonic hits of the past few years—"Dot Maresal," that marvel of synchronized melodies, and her Blue Grass Boys—concludes its engagement at the Orpheum theatre at the matinee this afternoon and the two shows this evening, with the other five

acts on the vaudeville program that opened last Thursday. For today only in addition to the six acts of vaudeville, there will be shown Harry Morey in "Beauty Proof," a six-reel photoplay declared to be the supreme triumph of Morey's long and brilliant screen career. Monday there will be a complete change of vaudeville, bringing to Lima for the first half of the week, as a headline attraction extraordinary, the "pre-historic love affair" called "Innocent Eve," and expected to be a sensational success.

In addition to Miss Maresal and Boys, the other acts on the vaudeville bill concluding its engagement today are Mr. and Mrs. La Barbe, in a cycle of sensational popular dance evolutions, Lynn and Lowmye, the black-face comedians, Fred and Green, "The Wop and the Girl," Billy Scott, the eccentric comedy juggler, musical and jacks, in an episode of youth and sunshine. In addition to "Innocent Eve," the other five acts on the vaudeville bill for Monday, Tuesday and Wednesday will be Fred Weber and Co., in a sensational ventriloquist novelty, Roy and Nelson in the comedy singing, talking and dancing hit, "Jockey Wanted," the Cromwells, in a novelty of comedy and versatility, Bob White, "The Whistling Doughboy," Joe and Agnes, in a delightful mixture of vocal and instrumental melody.

big Constance Talmadge hit "In Search of a Sinner," playing a two-day engagement at the Regent, movie fans may be more than enthusiastic. For in any that he see it will want to witness it again and many people who were disappointed at the initial appearance of the film will now have a chance to see it. Undoubtedly Miss Talmadge does some of the best work of her career in this picture. It's just spicy enough to be entertaining and it carries with it a fine moral for all its hilarity. Mary Pickford Fairbanks is coming to the Regent Tuesday for a five-day period in "Pollyanna"—the Glad Girl. The photoplay is a complete screen

RED AS THE BLOOD OF LIFE—THE AWAKENING OF A WOMAN'S SOUL

Added Features A Charlie Chaplin Comedy Mutt & Jeff

EXHIBITION OF MISS H. FORTER'S collection of "Pollyanna" dolls will be given for school children during the week.

MISS DALTON, whose appearances on the screen have been frequent since she made such a wonderful success in the great spectacular drama "Aphrodite" which closes its engagement at the Century theatre in New York this week and in which Miss Dalton has a dual role in this exciting and impressive play of far Eastern life—that of the female "Apache" and of an American girl who innocently becomes entangled in the underworld of the gay French capital.

Thomas H. Ince has provided a fine cast in her support, his usual expert photography and superb settings. There are a number of imposing scenes that are done in the best Ince manner.

Added features of the program today will include the Pathe News and the Paramount Magazine, both rich with novelties and humor.

Dorothy Dalton in "Apache" at the Lauro today.

"THE CINEMA MURDER"

One of the cleverest stories ever written by that master of fiction, E. Phillips Oppenheim, is "The Cinema Murder," which attracted much attention when published in one of the leading magazines. The Cosmopolitan company has pictured it for Paramount and it will be presented at the Lauro on Tuesday and Wednesday with beautiful Marion Davies in the principal part, a character of a novelty that should make this picture worth seeing in the depiction of both stage and screen, which of course is done in a most realistic manner. Nigel Barrie is Miss Davies' leading man and the supporting cast has been selected with great care. Other good things on this bill will include a fresh edition of the Pathe News and a new Paramount comedy, "Two Good to Be True," which has Ernest Truex for its featured player.

ALICE BRADY IN "SINNERS"

Probably the greatest success that Alice Brady has attained on the speaking stage was in Owen Davis' compelling play, "Sinners," which was produced by William A. Brady at his playhouse in New York with his talented daughter in the leading role. Miss Brady has selected this vehicle for her second pictures under Realart auspices and it will be shown at the Lauro next Thursday, Friday and Saturday. Associated with the brilliant young star in the cast will be James L. Cline, Frank Losee, W. P. Carleton, Crawford Kent and other prominent players, while the added features on the same bill will include the scintillating "Topics of the Day," Burton Holmes' travel pictures and last, but not least, the return of "Fatty" Arbuckle in his greatest laughing hit, "The Garage." Everybody has been asking for a repeat engagement of this furiously funny skit so don't miss it this time.

AT THE LYRIC

Green Moore of the famous Moore family, is the attraction at the Lyric theatre today in a new vehicle entitled "Some of Later," in which the star has ample opportunity to display his talents as a light comedian. The general plot revolves around a young woman, hater, Patrick Murphy (Owen Davis) and an ideal Murphy, doesn't he? No doubt, women or men, this is the best of the life he was leading and married? That is the way he thought at first, but later, when he returns to his old life, he finds it is not so good and fell hard. The picture contains some mighty amusing incidents and there is not a dull moment in its five reels. Green Moore plays the leading feminine role and the other in the cast are well chosen.

Larry Seamon in a side-splitting comedy "The Fly Cop" furnishes laughs aplenty and completes an extraordinary good bill.

The two orchestras playing at the Lyric have prepared an exceptional program of music and other character-istics. The Allison Quintet will play several selections from the "Kolies," and also a violin solo or two, while the orchestra will play "Blossoms," vocal numbers, too, have an important part on the program of this popular orchestra, including a vocal solo by the young man who sang "I'm the Guy That Guards the House." THE KEY TO HEALTH

Why YOU Should Investigate

Your greatest hindrance in your obtaining health is a prejudiced mind filled full of tales from some fellow whose business is being lost because all of his cases are going to the Chiropractor and obtaining health.

CHIROPRACTIC IS

Giving the "INCURABLES" their Health.

Giving the "BLIND" their SIGHT; the DEAF their HEARING.

Giving the "PARALYZED" their Strength.

The other day a mother brought her son to me who was suffering from a form of facial paralysis. In this state he could not close his right eyelid or use the right side of his face. After the first adjustment there was a remarkable improvement and today after the 4th adjustment all symptoms of paralysis have disappeared. Call and see for yourself.

Chiropractic is doing wonders in Lima today and now while the onset of your trouble is still in the "neute stage" you should consult a capable Chiropractor AT ONCE. Be careful in your choice of a Chiropractor.

KNOWLEDGE of the methods of Spinal adjustment such as I use CONVINCES the prejudiced mind of its value in successfully overcoming disease owing to its scientific points PARAMOUNT of all other systems or health methods.

This Scientific Chiropractic Adjustment is recommended as the most scientific adjustment known to the profession by the world's greatest Chiropractic authority—Dr. B. J. Palmer. It is absolutely harmless.

Weakens ordinary insulation so that it has to be renewed at least once during the life of the battery. Threaded Rubber Insulation is different. The rubber retains its valuable insulating properties clear to the end of the life of the battery, so that the user can forget that insulation trouble ever existed.

BRADLEY BONDED WAREHOUSE CO. Greenville, S. C.

Real Estate On Elizabeth Street

Between Market and High-st., is worth \$1000 per front foot for vacant land and some is practically unobtainable at any price. New business centers in large cities develop almost overnight. Just think of a number of large cities that business centers have changed and then walk up to the corner of Elizabeth and North-st., and look south! On the corner of Elizabeth and High is being erected the highest building in Lima. This is only the nucleus for the new business center for tomorrow. Elizabeth-st., from Wayne to the River will make thousands for the property owners and furnish the most certain and secure income. We offer Elizabeth-st. frontage north of North-st., \$300 per front foot. Between North and High \$700 per front foot; between High and Market with brick building \$1500 per front foot; between Water and River \$150 per front foot. We believe these properties will more than triple themselves in the next ten years. Bear in mind the big earnings from these properties are certain to increase in value. This is not feasible as income excepting in case of sale. In a few years this class of property will be unobtainable as is now the case on Main-st. Buy now, for your own profit and as a family monument to your business judgment. High building cost need have no effect on the investor in this class of property. Leases for ten years can be made on basis of actual cost with allowance for depreciation. Appreciation in land values will doubtless absorb entire building cost in a short time. Advice cheerfully furnished to prospective investors.

GERMAN OFFICERS ARE KILLED

Mutiny Breaks Out in Baltic Marine Brigades

BERLIN.—Two battalions of the Baltic marine brigade at Doberitz Camp, near Berlin, mutinied Wednesday night, killing several officers, it was reported here Thursday. The brigade was one of the chief supporters of the recent Von Kapp insurrection.

Captain Ehrhardt, commanding the brigade, claimed the fighting was between his troops and attacking reichswehr, but this statement was denied from several sources. Members of the brigade said it was mutiny.

The situation was reported still critical Friday night, the mutineers refusing to surrender to the camp commandant.

The cause of the outbreak was not clear. Apparently it came when the men refused to follow political plans of their leaders. Ehrhardt had announced the brigade would leave soon for Munster.

The mutineers were reported led by a soldiers' council which planned to enter politics on its own behalf.

Firing continued Wednesday night and Thursday according to reports in the city.

Meantime reports of a new revolutionary movement were current in Berlin. Revolutionary leaders were said to have met here secretly adopting a resolution to dissolve the reichstag when it convenes Monday. It was known the revolutionary elements planned a demonstration on the opening of the reichstag but authorities were seeking to prevent a repetition of the clash of January 12, when many people were killed as crowds attempted to rush the parliament building.

Radicals Thursday stated an agitation for another general strike was under way.

As you know, we have time and again publicly referred to the high esteem in which the Dort is held by owners.

We admit, here and now, to an honest pride in the fact that this car which bears our personal endorsement has been found good in the judgment of users.

And yet, it is not mere pride, however justifiable it may be, that impels us to emphasize the high standing of the Dort among owners.

It is rather that we look upon this very good-will which the Dort has earned as the most definite and undeniable proof we could possibly offer as to the desirability of the car for you.

Surely there could be no more dependable testimony in behalf of the car than the intensely satisfactory experience of these many thousand of owners.

The fine steels in a MAXWELL

stir your enthusiasm

Ride in a Maxwell and your enthusiasm is stirred for this commendable car.

You attempt to search for the cause and you find it in the steels used in the Maxwell. Those fine steels that give rare strength.

Such steels take the burden of dragging around useless weight from the engine, providing brilliant performance.

Pound for pound the steels in a Maxwell equal those in any car built.

The Maxwell construction, employing these fine steels, results in a light-weight car, that gives not only brilliant performance, but the rare combination of durability, economy and comfort.

Today nearly 400,000 Maxwells may be seen on the world's highways. 100,000 more are in process of construction.

Still this will supply but 60% of those who have set their minds on a Maxwell for 1920.

LEE WARNS U. S. TO NOT INTERFERE

Tells Nation to Keep Out of Labor Fight
MESSAGE TO CHAMBERS
Says Labor Organizations Will Oppose Action of Board

CLEVELAND—The government was warned Friday to keep out of the fight between the insurgent striking yard workers and the railroad brotherhoods by W. C. Lee, president of the Brotherhood of Railway Trainmen. The warning was contained in a message sent by Lee to W. L. Chambers, commissioner of the United States board of mediation and conciliation in Chicago.

The telegram said:

"The illegal strike, starting at Chicago and spreading to principal terminals in opposition to police and advice of brotherhood and switchmen's union, will be jointly disposed of by railroad companies and legitimate organizations, and board or any other department of the government recognize this insurgent element will meet with strenuous opposition from the entire membership of all recognized labor organization. I thank you for your tender of assistance."

The wire was in answer to a letter from Chambers stating that the board stood ready to lend its assistance in effecting a settlement. Another telegram was sent by Lee to A. J. Whitney, of the Brotherhood, who was sent to Chicago to refrain from asking federal aid in his work there. It read:

"Commissioner Hanger of the board of mediation and conciliation said to be at the Congress Hotel, Chicago and Judge Chambers, for the assistance of board. Make no request upon this board and decline to permit them to interfere. Such action would in my judgment recognize the insurgents to a degree neither satisfactory to legitimate organizations or operating officers."

"We will resist every effort to let this illegal strike by mediation," Lee said after dispatching the messages. "There is nothing to mediate and the fight now is to preserve the brotherhood and other recognized organizations. The old organizations must stand or fall by the results of this fight."

Lee dodged a direct answer to the question of whether the telegram sent to Chambers and Whitney pledged the brotherhoods to help break the strike.

"We are pledged to protect our agreements with the railroads," he said in answer to the question. "We do not propose to have rangers and rebels run our organization. We do not want the government to give

them standing by recognizing their organization."

When asked again whether this statement could be construed as meaning the brotherhoods were pledged to break the strike, he explained:

"Great guns! Don't you recognize the difference between breaking a strike and protecting our agreements?"

"We are interested in carrying out our contracts and of course that stand is against the insurgents."

DISCARDED X-RAY PLATES TO BE USED AS WINDOWS
DETROIT, Mich.—Discarded X-ray plates will give all the windows in the Detroit Municipal Tuberculosis Sanitarium being erected near Northville.

"These photographic plates, cleaned of chemicals will give the purpose as well as new glass and will save the city \$20,000," said Health Commissioner Henry J. Vaughn.

Flaming pictures are coming out of the Pontchartrain hotel and will cost only \$7,200 as against \$10,000 to \$15,000 for new.

"Five hundred mahogany door and frames from the dismantled hotel will save the city \$1,000," Mr. Vaughn declared.

Stop Losing Chicks

Conkey's

The Original

BUTTERMILK Starting Feed

Prevents the big losses due to weakness and disease and gives your chicks the quick, snappy get-away that produces early broilers and layers. It is made of pure, sweet grain combined by a special process with concentrated, sanitary Buttermilk.

The Buttermilk puts the edge to their appetite and introduces a beneficent bacteria that fights and destroys disease-propagating bacteria. Buy a bag and give it a trial.

The Hoover lifts the rug from the floor, like this—flutters it upon a cushion of air, gently "beats" out its embedded grit, and so prolongs its life.

The costliness of rugs today makes advisable their careful preservation. Frequent and thorough cleaning prolongs their years of usefulness and beauty. Such cleaning consists of three essentials: Beating—to dislodge destructive embedded grit; Suction—to straighten crushed nap and detach stubborn clinging litter; Suction cleaning—to remove surface dirt. Only The Hoover combines all three. And it is the largest selling electric cleaner in the world.

The HOOVER

It Beats.... As It Sweeps As It Cleans

The popularity of The Hoover has created a scarcity which not even a trebled output this year has entirely relieved. We suggest that you reserve your Hoover at once. We will make a home demonstration without obligation. Deferred payments if desired.

Redfern Corsets

Corset Miracles

—are being performed every day by

Redfern Corsets

—which not only improves figures, but actually transforms them

No matter what your figure is, or what its faults, a Redfern will give it the lines of slenderness and youth, making the back flat, the hips straight and slim, and the shoulders erect and graceful.

In addition to this, a Redfern will always be comfortable. It will provide a proper support for the figure and permit of easy and graceful movement. It will never grow wearisome.

A Redfern will make all your clothes feel better and look better. It will permit you to wear the styles which, hitherto, you considered too dependent upon a faultless figure. And it will make even old clothes look smart.

You may select a Redfern in a back-lace or a front-lace style. We have Redfern Corsets for the stout, the slim and the average figure—but all are distinguished by the perfection of line that makes Redfern the choice of the woman who really cares about her appearance.

Mary's mother was trying to wear the little girl's throat with an bowler and was meeting with con-

siderable opposition. Finally Mary said: "Mamma, I won't mind it so much if you would let me look it myself."

One of the questions on the examination paper given out at the country school was to name the different breeds of cattle to be found on farms in the surrounding section.

A little girl in the third grade

after evidently giving the subject some thought, wrote as follows: "There is only two breeds of cattle on our farm. They are Minnie-keys and Heffers."

"If a window cleaner is paid \$7 a day, what does it profit a man to be a college professor?" "Well, it's true that the college professor has to exist on a pittance but he has the satisfaction of knowing that if he and the window cleaner ever met at a social gathering he could make the window cleaner look silly by discussing the influence of his vector on the conductivity of a wire."

"I can speak your five minutes," said the taxi for ten minutes. "but you know my time is money."

LIMA'S LARGEST EXCLUSIVE TIRE HOUSE

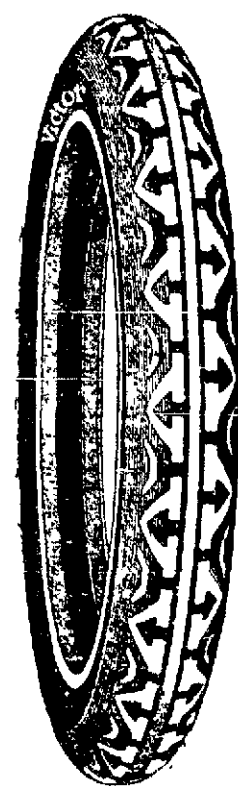

WE TAKE great pleasure in announcing to the motoring public that after careful consideration we have entered into contract with one of the leading Rubber Companies of the United States and from henceforth in addition to our present established lines we will control the distribution in our territory of the famous

VICTOR-SPRINGFIELD TIRES

Fabric and Cord

FABRIC—6000 MILE GUARANTEE

CORD—8,000 AND 12,000 MILE GUARANTEE

MILEAGE

A Quality Product of National Repute

HOGS

Victor Tires, Cord and Fabric, Are Called Mileage Hogs. Because They Never Know When They Have Had Enough Mileage

Victor Tires

WE have also contracted for the entire factory output of Victor Fabric and Cord blemished tires which we will distribute at the lowest possible prices

Victor automobile tires surpass all other tires for road resistance. Back of them is more than a mileage guarantee. For 21 years the Victor factory has been content with a moderately increasing output and has held steadfastly to its principles—the use of most skillful hand work, only highest grade rubber and super quality fabric. Thus the Victor Sulpene process was developed and improved year after year. This process endows the purest Ceylon and Para rubber with supreme enduring qualities and fully conserves its native resiliency.

Victor Tires, fabric and cord are the result of 21 years of experience and we can safely recommend them for super mileage. We select them because we believe them to be the best that money can buy.

In harmony with our policy we will distribute Victor tires together with our other lines direct from factory to you at wholesale prices. While they are higher priced than some others, yet their use means economy in the end and the cost within the reach of all.
